About Scentsy

Scentsy began with a simple idea – a safe, wickless alternative to scented candles – and quickly grew into one of the most successful direct selling companies in the world. This wickless concept is simply decorative ceramic warmers designed to melt scented wax with the heat of a light bulb instead of a traditional wick and flame.

Entrepreneurs Heidi and Orville Thompson encountered the product line at a home show in early 2004, purchased the tiny company, and moved Scentsy to Meridian, Idaho, where the company's first home office was a 40-foot ocean shipping container on a small sheep farm. The Thompsons were inspired by how the fragrance of wickless candles could bring powerful emotions and memories to the surface – without the safety risks of a burning candle – and launched Scentsy as a party plan company that same year.

Now today we have more than 80 fragrances and dozens of warmers - there is something sure to please everyone's scent palette and decorating style.

Warm the Heart, Enliven the Senses, and Inspire the Soul!

About Julie

I joined Scentsy in August of 2012 after being a loyal customer for over 5 years. I love the price point, the scents and the warmers - truly something to please everyone. More importantly, I felt strong about the quality of the product and it being wickless, fire-free, soot-free and lead-free. It's safe for everyone including children and pets.

If you'd like to try Scentsy yourself just contact me via phone or email. Tell me where you got my information and if you'd like to know more about the business opportunity please tell me that too so I can send you a packet to review.
